VISION

At South Molton United Church of England Primary School,
children have a sense of belonging in a supportive, happy environment,
where their range of talents will be nurtured,
enabling them to flourish and achieve excellence.
Every child is valued as a unique person and can develop their sense of discovery,
expectation and wonder.

We embrace Christian values, which enable us to be compassionate and responsible members of our community and make positive contributions to society.

Rationale

High quality Personal, Social, Health and Economic (PSHE) education is vital in supporting children's well being and development. Our PSHE curriculum aims to give children accurate and relevant knowledge; opportunities to turn that knowledge into personal understanding; opportunities to explore, clarify and if necessary challenge, their own and others' values, attitudes, beliefs, rights and responsibilities; the skills, language and strategies they need in order to live healthy, safe, fulfilling, responsible and balanced lives.

Subject Content

Personal, Social, Health and Economic Education is based around 3 core themes which will repeat each year and the curriculum is progressive, relevant and age appropriate. The three core themes are Health and Wellbeing, Relationships and Living in the Wider World (Economic Wellbeing and being a responsible citizen). Through the curriculum the following overarching concepts are explored and developed:

- 1) Identity
- 2) Relationships
- 3) A healthy balanced lifestyle
- 4) Risk

- 5) Diversity and Equality
- 6) Rights, responsibilities and consent
- 7) Change and resilience
- 8) Power
- 9) Career

In addition the curriculum seeks to develop skills under the broad headings of Personal effectiveness, Interpersonal and social effectiveness and managing risk and decision making.

Our PSHE education respects and takes account of pupils' prior learning and experiences. Programmes reflect the universal needs shared by all children and young people as well as the specific needs of the pupils in the school. PSHE is taught through a progressive programme, revisiting themes, whilst increasing the challenge, broadening the scope, and deepening pupils' thinking.

Our PSHE education prepares pupils for both their future and their present day to day lives. It is essential that pupils have the opportunity to recognise and reflect on how learning is relevant to them and can be applied in their own lives.

We use the PSHE Association scheme PSHE education Programme of study KS1 AND 2

Essential Skills

The intra-personal skills required for self-management

- Critical, constructive self-reflection
- Learning from experience
- Setting challenging personal goals
- Making decisions
- Recognising some of the common ways our brain can "trick us" or "trap us" in unhelpful thinking
- Resilience

- Self-regulation
- Recognising and managing the need for peer approval
- Self-organisation

The inter personal skills required for positive relationships in a wide variety of settings

- Active listening
- Empathy
- Communication
- Team working
- Negotiation
- Recognising and utilising strategies for managing pressure, persuasion and coercion
- Responding to the need for positive affirmation for self and others

Skills of enquiry

- Formulating questions
- Gathering and using data
- Analysis
- Planning and deciding
- Recalling and applying knowledge creatively and in novel situations
- Drawing and defending conclusions using evidence not just assertion
- Identification, assessment and management of risk
- Evaluating social norms
- Reviewing progress against objectives
