Transport  
Land use  
Environment

## What do we know?

**Know** where South Molton is in the world.

**Know how** to draw a map of my local area with a simple key.

**Know that** South Molton and its surrounding areas have many key landmarks.

## Big Ideas

## Forever Facts

**Know why** physical changes are different from human changes

**Know how** South Molton has changed since WW2

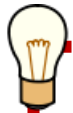

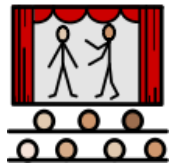

**Know that** human behaviour can change environments

## Where will it go?

### Showcase

So... *How and why is my local area changing?*

Make a map of South Molton with captions to show the changes.

## Vocabulary

- Abrasion
- Hydraulic Action
- Deposition
- Meander
- Management
- River
- Cliff
- Slip Off Slope
- Leisure
- Recreation
- Tourism
- Recede
- Restoration
- Erosion

How can the Earth wear away?

### What do we know?

**Know that** there are human and physical features on coasts

**Know why** an area changes because of human activity

**Know how** human behaviour can contribute to global and climate change.

1. Understand what wind erosion is and how it can change the landscape.

2. To know how water erosion along rivers creates distinctive features. Use the Thames as an example.

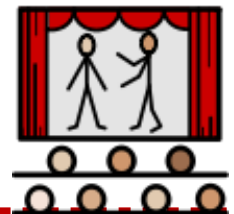

3. To know how humans can cause erosion and cause problems from national parks in the UK.

4. To know how waves can erode the land

5. To know how wave erosion along cliffs can cause cliffs to collapse and create problems for residents, specifically focusing on the coastal town of Westward Ho!

### Big Ideas

### Forever Facts

**Know why** the Earth eroding can cause problems for residents.

**Know how** the Earth erodes from wind, water and human activity.

**Know that** human behaviour can also affect the Earth's landscape.

### Where will it go?

#### Showcase

So... How can the Earth wear away?

Explain and summarise the erosion taken place in Westward Ho!
