

Schools advice to parents and carers

Keeping our children, schools and communities safe

Currently only people with COVID-19 symptoms need to **get tested**:

A high temperature

OR new, continuous cough

OR loss or change to sense of smell or taste

Visit the 111 [online symptom checker](#) and [check the government website](#) for changes to testing guidance.

People without COVID-19 symptoms don't need to get tested, unless asked to by a health professional, even if they are a 'close contact' of someone who tests positive. Close contacts should isolate for 14 days and only get tested if they develop COVID-19 symptoms.

What if...	You need to...	Return to school...
My child has COVID-19 symptoms?	<p>Keep your child at home and tell school they have COVID-19 symptoms</p> <ul style="list-style-type: none"> • Get your child tested and tell school the result. • Self-isolate whole household while waiting for test result (If unable to get a test, child must self-isolate for 10 days from when their symptoms started and rest of household must self-isolate for 14 days) 	if your child's test result is negative and they feel completely well. They should be without a high temperature for at least 24 hours.
My child tests positive for COVID-19?	<p>Keep your child at home and tell school test result</p> <ul style="list-style-type: none"> • Self-isolate your child for 10 days from when their symptoms started (or from day of test if no symptoms). • Self isolate your whole household for 14 days from when your child's symptoms started (or from day of test if no symptoms) even if someone else in the household tests negative during that time. 	after completing 10 days self-isolation and they feel completely well. They should be without a high temperature for at least 24 hours. They can return to school even with a cough or loss/change of taste or smell as these symptoms can last for several weeks after the infection has gone.
